

GEORGE SHOKRI, MD

Board-Certified Neurologist | Clinical Investigator | Headache & General Neurology

Marietta, Ohio | cases@shokrimedicaexperts.com | 440-666-4041

PROFESSIONAL PROFILE

Board-certified neurologist with more than a decade of post-graduate clinical experience and a broad community neurology practice. Current practice includes a substantial headache population, including approximately 300 patients receiving onabotulinumtoxinA (BOTOX) for migraine, as well as patients treated with conventional preventive and CGRP-targeted therapies. Experienced in stroke care, electrodiagnostic testing, EEG interpretation, neurology education, community outreach, and industry medical education. Prior investigator experience includes participation in the multicenter POINT trial.

CLINICAL RESEARCH & INVESTIGATOR EXPERIENCE

Investigator - POINT Trial

Multicenter acute ischemic stroke/TIA clinical trial | Prior

- Participated as an investigator in the POINT study evaluating clopidogrel loading plus aspirin versus aspirin alone in acute ischemic stroke and transient ischemic attack.

Investigator-Initiated Pilot Study

Clobazam in Epilepsia Partialis Continua | Prior

- Pilot research evaluating clobazam, lorazepam, and midazolam in the treatment of epilepsia partialis continua.

Patient Handoff Quality Improvement Study

Prospective quality-improvement project | Prior

- One-year prospective project focused on improving patient safety and reducing medical errors through improved patient handoff.
